

Business Insurance

When it comes to sound business decisions, it's important to trust the right people. Armed Forces Insurance is the name military families have trusted with their home, renter, and auto insurance. Through partnerships with multiple national carriers, we have expanded our services to include insurance for your business.*

There are many coverage options available to protect your business. Our experienced agents can help find the best coverage to protect your investment while giving you the peace of mind you deserve.

We offer solutions for many types of businesses to include:

- Sole owners, startups and expanding businesses
- Professional offices (medical, dental, legal practices)
- Ranch or farm operations
- Veteran organizations, such as American Legion, VFW, etc.

BUSINESS ASSETS

You take pride in your buildings, equipment, stock and supplies. Now no matter your size, location or industry, Armed Forces Insurance provides flexible insurance solutions.

BUSINESS LIABILITY

A growing business can have lots of moving parts. Accidents can happen on site and off, affect employees and customers, and leave your business responsible no matter how careful you are. Liability insurance can help cover attorney fees, medical expenses, and other damages you're found legally responsible for.

BUSINESS VEHICLES

More than 16,000 traffic accidents happen per day. Whether you use your own car, have a fleet, or rely on employee vehicles to get the job done, Armed Forces Insurance can find the protection you need to help keep your business moving forward.

EMPLOYEES

Workers' Compensation insurance covers medical costs and a portion of lost wages for an employee who becomes injured or ill on the job, but it also protects companies from being sued by employees for workplace conditions that can cause an injury or illness. Required in nearly every state, Workers' Compensation laws are designed to ensure payment on behalf of employers for the cost of injuries or occupational diseases.

BUILDING PROJECTS

No matter how large or small your construction or renovation project, you need insurance protection that goes beyond construction materials. A Builder's Risk Policy protects your investment, which means it will help replace your income as well as your expenses. You need a flexible agent like Armed Forces Insurance who realizes that the risk continually changes with every phase – from the hole in the ground right up until your building or home is completed.

Your time is valuable, and we respect that. To experience the professional service and peace of mind you deserve, call **800-295-9649** today and speak with a licensed agent, or visit www.afi.org/business.

We want you to succeed. At Armed Forces Insurance, Our Mission is You.®

*Business Insurance powered by Attune through Armed Forces Insurance Agency (AFIA) and other affiliated partners.
