OUR MISSION IS YOU.®

AFI.org

Having a household inventory of your personal property is one of the most important things you can do to protect yourself financially if you have a claim.

Establishing a household inventory is simple:

1. Make a list of all the rooms in your house.
2. Go room-to-room, listing your possessions and jotting down supporting information. At a minimum, the list should contain a complete description of the item, original price when purchased and estimated current price.
3. Keep this list current and in a safe place that is easily accessible*.

Key points to remember as you make a household inventory:

- Be specific. Cite serial numbers, brand names or model numbers whenever you can.
- When you buy expensive items, make sure you keep the receipt with your records in a safe place.
- Back up your inventory with photographs and video. Store these photos and video in a safe place outside of your home.
- Keep one copy of the inventory at home and remember to update it at least once a year.

***NOTE:** It is not necessary to file this inventory list with AFI.

In the event of a loss, notify AFI Claims department at **800-664-9331** immediately.

Record the date below:

Date: _____

Revised: _____

Revised: _____

List property in each room and give information in columns provided. In case of gifts, show date of receipt and approximate value.

Living Room
